CIEH – LEVEL 2 HEALTH & SAFETY

Chartered
Institute of
Environmental
Health

This qualification will benefit anyone in a work environment as it provides employees with an understanding of health and safety that will enable them to contribute to any risk assessment based health and safety management system.

This qualification will provide your employees with fundamental health and safety knowledge. It has been completely revised with new and updated content and is complemented by the second edition of the *Health and Safety First Principles* course book.

Course Outline

The Level 2 course covers 6 sessions, which include:

- Introduction to health and safety and safety Law
- Health and Welfare
- Safety - hazards and controls
- The workplace and work equipment
- Hazardous substances and Manual Handling
- Ergonomics, working at height and transport

Assessment

All those that pass the multiple choice assessment receive a nationally accredited certificate to prove they have participated in a training programme and successfully completed the assessment.

Employees can use the certificate to demonstrate the level of health and safety knowledge they have achieved.

Duration 1 day

This accredited course will provide a sound introduction to encourage compliance within the workplace environment. Courses are usually conducted over one day, but can be split over two mornings/afternoons if required.

Alternative arrangements may be made for block bookings.
