CIEH – LEVEL 2 Principles of COSHH

Chartered
Institute of
Environmental
Health

Principles of COSHH is a stand-alone level 1 qualification, which complements the CIEH Health and Safety programme. It is aimed at those who use substances hazardous to health and introduces students to the hazards associated with those substances, the risks and controls available and what to expect from a COSHH assessment.

Duration 3 hours

Successful completion will prepare students to look carefully at their own work activities and contribute to the safer use of hazardous substances in co-operation with their managers and supervisors.

Assessment

The programme is followed by a short objective test.

Course Outline

This 3 hour accredited course will provide a sound introduction to encourage compliance within the workplace environment.

- Understanding term 'substance hazardous to health'
- Responsibilities imposed by the Control of Substances Hazardous to Health Regulations 2002.
- Types of substances hazardous to health in the workplace.
- How hazardous substances can cause ill-health and injury
- Health effects of hazardous substances and their causes
- Different ways to identify hazardous substances
- Principles for controlling hazardous substances
- Conducting a COSHH assessment and control options.
- Provisions of the Control of Substances Hazardous to Health Regulations 2002.
