CIEH – LEVEL 3 RISK ASSESSMENT

Chartered
Institute of
Environmental
Health

Anyone carrying out a risk assessment needs to have the necessary knowledge and skills. This qualification ensures that supervisors and managers have the necessary depth of understanding to enable them to carry out risk assessments.

Aimed those with a responsibility for the health and safety of others at work. Successful delegates will be able to assist their organisations in improving health and safety culture and practice

Course Outline

The training programme covers the following topics:

- Legislation
- Principles of risk assessment
- Prioritising risk
- Controls
- Documentation
- Monitoring controls
- Risk assessment in practice

Assessment

- Promotes good practice and safer working environments
- Can help to reduce insurance premiums and minimise the risk of litigation
- Valued by environmental health professionals
- Developed to nationally recognised standards
- Accredited training extends the duration of employment and reduces recruitment costs

The programme is followed by a examination paper (multiple choice) All successful candidates will receive a CIEH Certificate.

Duration 1 day

Courses are usually conducted over a two day period , but can be split into on day per week or half days.

Alternative arrangements may be made for block bookings ONLY
